The year 2025 will forever be etched in the American consciousness, not for technological leaps or cultural milestones, but for the chillingly close brush with a second civil war. In 491 BC, the Dictator Darius sent envoys to several Greek cities with demands for land and water. Darius had noted with hatred how the state of Athens had become the closest thing to today's democracies and with a lot of power among the people. He wants to quell this development in time. Democracy was born around 500 BC with Athens' unexpected development away from the usual rule through a Dictatorship. The request for water and land is the traditional method for creating demands for submission.

Donald Trump was so often summoned to the Principal for admonitions that he was nicknamed DT (Quarterly Sitting), which fits the English language and also the initials of his name. Several psychologists have stated in writing that Trump is a sociopath and there are books on the subject. Recently, another diagnosis has also been found, such as Dementia. The combination of Sociopath and Dementia is very dangerous and unsuitable for people who lead entire countries. In 1987, the KGB arranged for Donald Trump to be invited to Moscow and the KGB lured him with the idea that Trump could build a hotel in Moscow and suggested that Trump should seek politics. Trump went home and paid for advertisements in newspapers that favored the USSR Soviet Union. The KGB gave Donald Trump the name

These situations include when:

A state governor requests help to suppress an insurrection. There is "unlawful obstruction, combinations, or assemblages, or rebellion" against the federal government that makes it "impracticable to enforce" laws through ordinary judicial proceedings. Federal law is being opposed or obstructed, or when the president needs to enforce federal laws or protect civil rights when a state is unable or unwilling to do so. The Insurrection Act gives the president broad discretion in deciding when to invoke it, but it is intended as a tool of last resort for genuine emergencies where civilian authorities are overwhelmed.

Donald Trump future (English)

Donald Trump's presidency was a tumultuous and controversial period in American history. His first 100 days in office set the tone for a disastrous term that would see him become the most unpopular and inept leader the nation has ever seen. This paper will explore the key events and policies that led to Trump's downfall and eventual trial for treason.

Deportation of US Citizens to Concentration Camps: One of Trump's most egregious actions was the deportation of US citizens, including legal permanent residents and even natural-born American citizens, to makeshift concentration camps set up in El Salvador. The conditions in these camps were worse than those in Nazi Germany during World War II. Detainees faced overcrowding, poor sanitation, inadequate food and water, and physical and sexual abuse at the hands of guards. Many died under these inhumane conditions.

The deportation policy was a clear violation of the Constitution and international human rights law. Trump ignored rulings from federal courts that attempted to block his executive orders. He replaced judges who ruled against him with hand-picked loyalists who would rubber-stamp his illegal actions. The media was silenced through intimidation and censorship.

created to prevent a person who wanted to introduce a dictatorship and looked after his own interests. This is also known from a letter from President George Washington. Since Donald Trump, through a number of irregular decisions and these clearly show plans to make himself a dictator, is already violating the constitution and that should be enough to impeach him. Otherwise, the constitution is written incorrectly, or those who sit in the Senate and House of Representatives are too cowardly. The representatives who do not try to prevent Donald Trump will have played the same role in history as those who did nothing to stop Adolf Hitler. So it must be that they think like Donald Trump or see other advantages in being close to a dictator. They may like power or their own economic advantages. You can bundle up the judgment about these cowards later in new history books. "These traitors to the American Constitution sat there helpless and just watched and let it happen. Time to wake up, you still have time to avert the biggest scandal in US history. Trump and Musk are planning to form a new, larger USA. Canada and Greenland will be included. In the longer term, Mexico too. The idea that Technocrats with extreme wealth know better is the basis for the plan. It is completely inspired by Elon Musk, who in turn was inspired by a book from 1855 and reworked in the 1920s. Sectors have already been formed with such ambitions and they have been banned. Elon Musk has dusted off the plans and only a blind and deaf person does not see or hear how Nazi-inspired plans have already begun. The plan includes dismantling important public health functions. Haven't you noticed it yet? The US has simply got criminals to lead the country towards the same

If you're a little confused about what Musk is trying to achieve with DOGE, here's the breakdown:

Elon Musk and Peter Thiel cofounded a company that became PayPal.

Other executives at PayPal went on to found or lead other huge tech companies including YouTube, LinkedIn, Reddit, Affirm, and many VC firms.

This group became known as the PayPal mafia because they exerted an outsized influence on Silicon Valley.

Peter Thiel mentored a young JD Vance and helped him get set up in his first VC firm.

Peter Thiel and the PayPal mafia funded JD Vance's successful Senate run. Amazing because he had

to choose JD Vance as VP in exchange for funding his presidential campaign.

The three of them, plus a lot of other tech billionaires subscribe to an ideology called the Dark Enlightenment espoused by this super weird, creepy dude: Curtis Yarvin aka Mencius Moldbug.

Yarvin preaches that the media and academia represent "The Cathedral" that secretly controls power and must be dismantled.

He advocates for a corporate run, monarchy, led by a CEO-Dictator.

Says that Democracy is an "outdated software" and openly opposes it and that:
- Government agencies should be dismantled and The U.S. should be broken up into "patchworks" controlled by tech oligarchs.
- That the elite tech billionaires should

dumb to govern themselves.

The strategy is to gut the government via R.A.G.E - Retire All Govt Employees to make government incapable of operating.

Then to replace government with private corporations.

To eliminate elections because they are "obsolete"

To use distraction and chaos to prevent public resistance.

Trump is their useful tool to be disposed of as soon as they can wrest control.

This is why Elon wears a black MAGA hat. They are not Trump supporters, they are "Dark MAGA"

This isn't a hypothetical. The plan is already in motion:

eyes of the whole world. The evidence is overwhelming. The hijackers are not even trying to hide their plans or actions already taken towards the goal. Abolish democracy in the United States and introduce a Dictatorship. But they do not have control over the armed forces and the Generals, That is the chance to avert the coup as soon as possible. The Generals must then decide whether to intervene or accept a Dictatorship in the United States soon.

Thiel and Musk all but forced Trump to choose JD Vance as VP in exchange for funding his presidential campaign.
The three of them, plus a lot of other tech billionaires subscribe to an ideology called the Dark Enlightenment espoused by this super weird, creepy dude: Curtis Yarvin aka Mencius Moldbug. Yarvin preaches that the media and academia represent "The Cathedral" that secretly controls power and must be dismantled.
He advocates for a corporate run, monarchy, led by a CEO-Dictator.
Says that Democracy is an "outdated software" and openly opposes it and that:

This isn't a hypothetical. The plan is already in motion:
- Musk, Thiel, and their network are actively dismantling democratic institutions.
- JD Vance, the "MAGA heir," is being positioned to help implement this transition.
- The public is too distracted to realize what's happening.
- If successful, democracy in America will be permanently replaced by a corporate-run authoritarian state.
- That's it. Now that you understand that you can see how everything that's happening fits within that lens.
- Now the only question is what do we do about it?
- Anders Dernback
- Yes thats true! A masterplan, and a crime. It is a case for the Generals. Better to perform a new crime, to arrest those behind the plan behind the masterplan, compared to let it happen. New elections after 6 months, and the Generals steps down.

The city's businesses could lose the equivalent of SEK 19 billion this year from the US boycott, writes Di.
The tourism organization NYC & Company has calculated that New York will receive around 700,000 fewer tourists as a result of Trump becoming president and his travel ban rules. According to the calculation, the city will lose SEK 18,000 per visitor plus other negative effects.
And for the US as a whole, the reduced tourism could lead to the country losing up to SEK 100 billion, according to an estimate by Oxford Economics, Di writes.

The election liquidated what was left of Weimar democracy and reduced the Reichstag to a mere stage for Hitler's speeches. It only met sporadically until the end of World War II, held no debates and enacted only a few laws, while the Reichsrat was abolished in February 1934 by the Law on the Abolition of the Reichsrat.
Deaths directly caused by the war (including military and civilian fatalities) are estimated at 50–56 million, with an additional estimated 19–28 million deaths from war-related disease and famine.

Curiously, the German people elected a person who participated in a coup d'état in 1923 and was imprisoned for the failed coup attempt. In September 2024, American right-wing politicians and media figures amplified false claims that Haitian immigrants in Springfield, Ohio, were illegally abducting pets such as cats and dogs and eating them.
Springfield became a popular destination for Haitian migrants in the 2020s, leading to racial tensions in the city. The claim about immigrants eating pets began when a member of a local Facebook group said a neighbor's daughter's friend's cat was eaten by immigrants. It spread quickly among far-right and neo-Nazi groups, and was then amplified by prominent figures in the American right, most notably Republican presidential nominee Donald Trump, his running mate JD Vance, and X owner Elon Musk.

37 Psychiatrists and Mental Health Experts Assess a President - Updated and Expanded with New Essays
Author: Bandy X. Lee, M.D., M.Div., Organizer of Yale's "Duty to Warn" Conference
Authors argue that the President's mental health was affecting the mental health of the people of the United States and that he places the country at grave risk of involving it in a war, and of undermining democracy itself due to his dangerous pathology. The Dangerous Case of Donald Trump is a 2017 book edited by Bandy X. Lee, a forensic psychiatrist, containing essays from 27 psychiatrists, psychologists, and other mental health professionals describing the "clear and present danger" that US President Donald Trump's mental health poses to the "nation and individual well being".

Trump´s rise to power
Adolf Hitler's rise to power
The Beer Hall Putsch, also known as the Munich Putsch, was a failed coup d'état by Nazi Party (Nationalsozialistische Deutsche Arbeiterpartei or NSDAP) leader Adolf Hitler, Generalquartiermeister Erich Ludendorff and other Kampfbund leaders in Munich, Bavaria, on 8–9 November 1923, during the Weimar Republic. Approximately two thousand Nazis marched on the Feldherrnhalle, in the city centre, but were confronted by a police cordon, which resulted in the deaths of 15 Nazis, four police officers, and one bystander.
Same story. A completely unsuitable candidate involved in a coup attempt is considered by the people to be a good choice to lead the country. Out of mind! Election 2024. Same story as in Germany.

Den ryska invasionen av Ukraina i februari 2022 har orsakat ett sammanbrott av förbindelserna mellan NATO och Ryssland till den lägsta nivån sedan slutet av det kalla kriget 1991. Natomötet i Madrid 2022 förklarade Ryssland "ett direkt hot mot den euro-atlantiska säkerheten" medan Nato–Ryssland rådet förklarades nedlagt. Även om ryska tjänstemän och propagandister har hävdat att de är "i krig" med hela Nato och västvärlden, har Nato vidhållit att dess fokus ligger på att hjälpa Ukraina att försvara sig, och inte på att bekämpa Ryssland. Försvarsbudget i Ryssland är ca 8 % av NATO budgeten. NATO är vida överlägset på lång sikt vid ett fullskaligt krig.

Kristallnatten mellan 9 november och 10 november 1938 var kulmen på de våldsamma pogromer mot judar, Novemberpogromerna, som genomfördes i Tyskland mellan den 7 och 13 november 1938. Pogromerna iscensattes av nazister och utfördes av beväpnade grupper främst från det paramilitära Sturmabteilung (SA) men även av många civila. Omkring 400 judar dödades eller tvingades begå självmord, 20 000–30 000 arresterades och fördes till koncentrationsläger, 267 synagogor brändes ned och över 7 500 butiker vandaliserades.

HATTAR OCH MÖSSOR
var en benämning på Sveriges två första riksdagspartier som uppkom på frihetstiden under 1700-talet. De båda partierna företrädde - lite förenklat uttryckt - olika samhällsgrupper. Hattarna var främst adelns parti, medan mössorna i första hand representerade de lägre ständen.
